NOTES:

1. The "no fixed workplace" response category was included directly on the questionnaire for the first time in the 1996 census. (Previously, respondents has the option of writing "no usual place of work" in an address field.) The change in the design of the question has resulted in much larger numbers of respondents identifying themselves as having no fixed workplace than ever identified themselves as having no usual place at work. The census results are therefore not directly comparable with previous censuses and some caution should be used when comparing municipal totals overtime.

2. In 1971 to 1981 Subd A, Lions Bay, Belcarra, Anmore number were included with "CT 250" Subd A, Lions Bay, Belcarra, Anmore total.

3. Bowen Island was part of CT 250 before 1999.

4. Langley City number is included with Langley District total for 1971 and 1981.

5. University Endowment Area numbers are included with Vancouver total for 1971-1991.

6. Pitt Meadows number is included with Maple Ridge total for 1971 and 1981.
