Greater Vancouver Regional District

Air Quality Management Fees Regulation Bylaw No. 1083, 2008

WHEREAS:
A. The Greater Vancouver Regional District has enacted the Greater Vancouver Regional District Air Quality Management Bylaw No. 1082, 2008; and
B. That Bylaw contemplates the payment of fees.

NOW THEREFORE the Board of Directors of the Greater Vancouver Regional District in open meeting duly assembled enacts as follows:

General

1 This Bylaw may be cited for all purposes as the “Greater Vancouver Regional District Air Quality Management Fees Regulation Bylaw No. 1083, 2008” (in this Bylaw, “this Regulation”).

2 (1) This Regulation is deemed to be an integral part of the Greater Vancouver Regional District Air Quality Management Bylaw No. 1082, 2008 (“the Bylaw”).

(2) Terms defined in the Bylaw, or incorporated by reference into the Bylaw, have the same meaning in this Regulation.

Definitions

3 In this Regulation:

“authorized discharge” means:

(a) the quantity of an air contaminant that is authorized by permit, approval, or emission regulation; or

(b) if the quantity of an air contaminant in the discharge is not specified in a permit, approval, or emission regulation, the quantity of the air contaminant determined from discharge factors applied in accordance with procedures approved by the district director;

“hazardous air pollutants” means air contaminants that:

(a) meet the definition of toxic under the Canadian Environmental Protection Act, 1999 and listed in Schedule 1 of that Act (List of Toxic Substances) as amended from time to time, but not including greenhouse gases, ozone, respirable particulate matter less than or equal to 10 microns and air contaminants that are precursors to particulate matter formation (nitrogen oxides, sulphur dioxide, volatile organic compounds and ammonia); or

(b) are included in the United States Clean Air Act, United States Code Title 42, c. 86 §7412(b)(1) (List of Hazardous Air Pollutants); or

(c) as determined by the district director;

“measured discharge” means the quantity of an air contaminant discharged for a calendar year determined by a program which has been approved in writing by the district director;
“odour unit” means an amount of an odourant as determined in accordance with European Standard EN 13725:2003 (“Determination of odour concentration by dynamic olfactometry”), or as otherwise approved by the district director;

"TRS" means total reduced sulphur compounds, including but not limited to hydrogen sulphide, methyl mercaptan, dimethyl sulphide and dimethyl disulphide;

"volatile organic compounds (VOC)" means any organic compounds containing carbon which participate in atmospheric photochemical reactions.

Payment of Fees
4 Every person who applies for or is the holder of a permit must pay the application fees and annual fees set out in this Regulation.

5 Every person who applies for or is the holder of an approval must pay the application fees and the approval fees set out in this Regulation.

Calculation of Air Contaminant Emission Fees
6 “Air contaminant emission fees” (Z) are calculated as follows:

\[ Z = A \times B \]

Where A = the authorized discharge in tonnes of an air contaminant listed in column 1 of Table 1;
and B = the corresponding fee per tonne of air contaminant listed in column 2 of Table 1

Table 1 – Air Contaminant Emission Fees for Authorized Discharges

<table>
<thead>
<tr>
<th>Column 1 (A) Air contaminant</th>
<th>Column 2 (B) Emission fee per tonne of air contaminant</th>
</tr>
</thead>
<tbody>
<tr>
<td>Particulate Matter (filterable and condensable from combustion sources)</td>
<td>$300</td>
</tr>
<tr>
<td>Particulate Matter (other than from combustion sources)</td>
<td>$30</td>
</tr>
<tr>
<td>Nitrogen Oxides (NOx)</td>
<td>$50</td>
</tr>
<tr>
<td>Volatile Organic Compounds (VOC)</td>
<td>$30</td>
</tr>
<tr>
<td>Sulphur Oxides (SOx)</td>
<td>$100</td>
</tr>
<tr>
<td>Total Reduced Sulphur (TRS)</td>
<td>$150</td>
</tr>
<tr>
<td>Hazardous air pollutants</td>
<td>$1,000</td>
</tr>
<tr>
<td>Other (not otherwise specified)</td>
<td>$30</td>
</tr>
<tr>
<td>Odour (fee per billion odour units)</td>
<td>$50</td>
</tr>
</tbody>
</table>
“Total emission fees” are calculated as the sum of all air contaminant emission fees applicable for annual emissions authorized by a permit or emission regulation or, in the case of an approval, for the period of the approval.

Permit and Approval Fees

The application fees payable to the District are as follows:

(1) For an application for a new permit or approval, $200 plus twice the total emission fees that would be payable for the emissions specified in the application; or

(2) For an application for an amendment to a permit or approval, $200 plus twice any increase in the total emission fees that would be payable for the emissions specified in the application.

An application fee must be paid at the time the application is submitted and is not refundable by reason only that the permit, approval or amendment is refused.

A holder of a permit must pay annually the total emission fees plus $200.

A holder of an approval must pay the total emission fees for the period authorized by the approval plus $200.

If a permit or approval is cancelled at the request of the holder of the permit or approval then the District will issue an invoice for any prorated amount due or will refund the amount of any overpayment of the applicable fees.

If a permit or approval is amended then the District will issue an invoice for any prorated amount due or will credit the amount of any overpayment against any fees payable in the subsequent year or, if no fees are payable in the subsequent year, will refund any overpayment to the holder of the permit or approval.

Measured Discharge Program

The holder of a permit who has been in compliance with the permit and the Bylaw throughout a calendar year may apply for a credit against future emission fees. An annual application must be submitted by March 31st of the year following the discharge, and be accompanied by a fee of $200 and information required by the district director in support of the application.

If the district director determines that the holder of a permit qualifies for a credit, the credit will be calculated as follows:

Credit = (authorized discharge - measured discharge)/2 x air contaminant emission fee

The credit will be applied against emission fees payable by the holder of the permit for the year in which the application is received.
Read a first time this 25 day of July, 2008.

Read a second time this 25 day of July, 2008.

Read a third time this 25 day of July, 2008.

Reconsidered, passed and finally adopted by the Board of Directors of the Greater Vancouver Regional District this 25 day of July, 2008.
