Subject: North Shore Wastewater Treatment Plant Project: November 2022 Community Newsletter

metrovancover | LIQUID WASTE

November 2022

About the Project

Metro Vancouver is building the North Shore Wastewater Treatment Plant to replace the current Lions Gate Wastewater Treatment Plant. This new treatment facility is being built to serve 250,000 residents and businesses on the North Shore and will provide tertiary treatment to better protect the environment. Visit the [project webpage](#) to learn more.

The project is located on West 1st Street, between Philip and Pemberton Avenues, in the District of North Vancouver (see map below for location).

Current Activity at the Treatment Plant Site

What to expect on and near the site over the coming month:

- Crews pouring concrete and working on concrete forms and structures
- Construction noise from power tools and equipment
- Cranes moving materials and equipment
- Vehicles delivering materials to the site via West 1st Street, between Pemberton Avenue and Philip Avenue

- Crews conducting survey work and inspections

The level of activity on site is anticipated to increase gradually over the coming month and into early 2023.

As the weather gets colder, crews may also complete some minor road maintenance on West 1st Street from MacKay Road to west of Garden Avenue, as needed. Two-way traffic will be maintained. Please follow the direction of signage and traffic control people.

Work Hours

Monday to Friday between 7:00 am and 8:00 pm

Saturdays between 9:00 am and 5:00 pm.

All work will comply with District of North Vancouver bylaws or granted bylaw variances. Advance notification will be provided if extended working hours are scheduled.

Project Map

This map shows the locations of the three projects included in the North Shore Wastewater Treatment Plant Program:

- The new treatment plant (under construction)
- The pump station (complete) and conveyance pipes (partially complete)
- The existing Lions Gate Wastewater Treatment Plant (to be decommissioned when the new plant is complete)

Keeping the Community Informed

You are receiving this information because you signed up for updates on the North Shore Wastewater Treatment Plant Project. Updates are sent by Metro Vancouver via email newsletter and posted on the [project webpage](#).

If you know others who are interested in the project, please forward this email to them and encourage them to sign up to the mailing list by visiting the [project webpage](#) and clicking on the “Sign Up” button under “Stay Connected”.

Metro Vancouver is a federation of 21 municipalities, one electoral area, and one treaty First Nation that collaboratively plans for and delivers regional-scale services. Its core services are drinking water, wastewater treatment, and solid waste management. Metro Vancouver also regulates air quality, plans for urban growth, manages a regional parks system, and provides affordable housing. The regional district is governed by a Board of Directors of elected officials from each local authority.
