LOWER SEYMOUR CONSERVATION RESERVE

The Lower Seymour Conservation Reserve is used by a variety of users groups. Please be courteous to other visitors.

Cycling is permitted throughout the forest with the exception of Rice Lake Loop Trail, Homestead Trail, and the Old Growth Trail. Bikes must be walked along these routes due to limited visibility and steep slopes.

Dogs are not permitted north of Rice Lake Gate House. This includes the Seymour Valley Trailway and the Rice Lake Loop Trail. Dogs are permitted on designated trails. Please keep your dog under control and remove droppings. See dog brochure for more trail information.

Horses are not permitted north of Rice Lake Gate House. Horses are permitted on the same trails that are open to dogs, and have the right-of-way over pedestrians and cyclists.
